

TERRO®

Multi-Purpose Insect Bait

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION

This product is a ready-to-use, weather/moisture resistant bait that controls and kills ants (except fire ants), cockroaches, crickets, earwigs, silverfish, snails and slugs, specifically:

Ants: Argentine, Carpenter, Thief, Pharaoh, Little Black, Pavement, Odorous House and Crazy Ants

Cockroaches: Asian, American, Brown, Brown Banded, Smokey Brown, German and Oriental Cockroaches

Crickets: Camel, House, Field and Mole Crickets

Snails and Slugs

European Earwigs

Do not contaminate this product with other pesticides. If this product becomes contaminated with another pesticide it will lose its effectiveness. Do not apply directly to food and avoid contamination of feed and foodstuff. This product is designed to be used as a residual treatment in an Integrated Pest Management program incorporating good sanitation practices. Keep children and pets out of treatment area until application has been completed. Do not treat pets with this product. Avoid over-application around ornamental plants and fish ponds. Do not apply this product in combination with fertilizers, other pesticides or other biologically-active materials.

APPLICATION INSTRUCTIONS

Exterior Baiting to Control and Kill Ants (except fire ants), Including Carpenter Ants, Around Homes and Other Structures:

Treat exterior perimeter areas of structure in a band 2 to 4 feet wide at a rate of 6 ounces per 100 square feet. Also apply product in a 2 to 4 foot band around all trees, stumps, firewood piles and other locations where carpenter ants may nest. If the nest is located in a hollow tree or stump, apply 1/2 to 1 ounce of product directly into the cavity. Apply along ant trails and in areas where ant activity has been noted.

To Control and Kill Ants (except fire ants), Cockroaches, Crickets, Earwigs and Silverfish Within and Around the Exterior of Homes:

Apply at a rate of 6 ounces per 100 square feet of surface area. Spread evenly in crawl spaces, attics, drop ceilings and cellars with dirt or gravel floors. Concentrate application in areas where insect activity is most prevalent. In attics, be sure to apply in eaves and access drains. In garages and basements, concentrate application along walls and baseboards. This product may also be applied in inaccessible areas such as cracks and crevices where insects may hide. Reapply as necessary.

Exterior Baiting to Control and Kill Snails and Slugs in Flower Gardens and Around Ornamentals, Groundcovers and Shrubs:

At the beginning of the spring planting season (before damage occurs), broadcast 6 ounces per 100 square feet in areas likely to be infested with snails and slugs. It is best to apply the bait during early morning or evening when slugs and snails are present and eating. Reapply every four weeks for satisfactory control.

STORAGE AND DISPOSAL

Pesticide Storage: Store in a dry place. Do not store where children or animals may gain access.

Disposal: Non-refillable container; do not reuse or refill this container. **If empty:** Offer for recycling, if available; otherwise place in trash. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
